Online Services Records Access
Patient information leaflet 'It's your choice'

If you wish to, you can now use the internet to book appointments for a blood test, cervical smears, check or cancel appointments, request repeat prescriptions for any medications you take regularly, and look at your medical record online. You can also still use the telephone or call in to the surgery for any of these services as well. It's your choice.

If you wish to only book appointments and/or order medication, contact the Practice either by phone and a login will be given once you have been verified

If you would like access to your detail coded medical record, then complete the form out below and bring it to reception with ID.

Being able to see your record online may help you to manage your medical conditions. If you decide not to join or wish to withdraw, this is your choice and practice staff will continue to treat you in the same way as before. This decision will not affect the quality of your care.

You will be given login details, so you will need to think of a password which is unique to you. This will ensure that only you are able to access your record – **unless you choose to share your details with a family member or carer.**

It will be your responsibility to keep your login details and password safe and secure. If you know or suspect that your record has been accessed by someone that you have not agreed should see it, then you should change your password immediately.

If you can't do this for some reason, we recommend that you contact the practice so that they can remove online access until you are able to reset your password.

If you print out any information from your record, it is also your responsibility to keep this secure. If you are at all worried about keeping printed copies safe, we recommend that you do not make copies at all.

The practice has the right to remove online access to services. This is rarely necessary but may be the best option if you do not use them responsibly or if there is evidence that access may be harmful to you. This may occur if someone else is forcing you to give them access to your record or if the record may contain something that may be upsetting or harmful to you. The practice will explain the reason for withdrawing access to you and will re-instate access as quickly as possible.

Before you apply for online access to your record, there are some other things to consider.

Although the chances of any of these things happening are very small, you will be asked that you have read and understood the following before you are given login details.

Things to consider

Forgotten history

There may be something you have forgotten about in your record that you might find upsetting.

Choosing to share your information with someone

It's up to you whether or not you share your information with others. It's your choice, but also your responsibility to keep the information safe and secure.

Coercion

If you think you may be pressured into revealing details from your patient record to someone else against your will, it is best that you do not register for access at this time.

Misunderstood information

Your medical record is designed to be used by clinical professionals to ensure that you receive the best possible care. Some of the information within your medical record may be highly technical, written by specialists and not easily understood. If you require further clarification, please contact the surgery for a clearer explanation.

Information about someone else

If you spot something in the record that is not about you or notice any other errors, please log out of the system immediately and contact the practice as soon as possible.

To apply & register

You may have already signed up to other online services, but due to the highly confidential nature of this service, we require all patients to bring their ID to be validated.

You will need to visit the surgery with the application form completed, and two documents: one showing proof of your address and the other being an item of photo ID.

The reception team will forward the application to a member of the clinical team for approval. Access will be granted within 21 days.

Please note that clinical work always takes priority over admin such as this, so please bear with us if it takes a little longer.

Access for Children, parents and guardians

Child access will automatically be disabled when a child reaches the age of 11.

A competency assessment will be carried out on any proxy request for a child between the ages of 11-16. Regardless of outcome a parent /guardian/carer will have to re-apply using the Proxy Access Registration Process., where a competent child must authorize the request for Proxy Access. This will be at the discretion of a clinician.
